About Me

Dynamic Project Manager with experience leading cross-functional teams to deliver tech-driven projects on time and within scope. At Nucleo Research Inc., I oversee product integration, ensuring collaboration and clear communication. With a background in software engineering and AI/ML, I excel in project tracking, agile methodologies, and fostering innovation.

Education

Master of Science | Computer Science   2024 - 2025
CESI, Toulouse

Currently participating in a semester exchange program as part of my Bachelor of Technology in Computer Science Engineering. The program follows a Problem-Based Learning (PBL) methodology, emphasizing hands-on problem-solving, collaboration, and innovation in computer science.

Bachelor of Technology | Computer Science Engineering   2022 - 2026
GD Goenka University, Haryana

Currently pursuing a Bachelor's degree in Computer Science Engineering. My coursework focuses on programming, data analysis, and artificial intelligence. I have been recognized for my research in flood prediction, earning awards for utilizing machine learning to develop innovative and accurate prediction systems.

Experience

Project Manager   Aug 2024 - Present
Nucleo Research, Inc.

- Managed 4+ teams across different projects, led integration into a single product, and ensured seamless collaboration through weekly meetings and daily progress tracking while reporting directly to the CEO.

Product Evaluator   Sep 2024
Phia

- Tested beta software, ensuring functionality and user experience met standards.
- Provided actionable feedback to enhance product performance and usability by 20%.

Software Engineering Fellow   Jul 2024 - Sep 2024
Headstarter

- Built 5+ end-to-end SaaS products, participated in weekly hackathons, and collaborated with startup companies to solve real-time problems, enhancing practical skills and industry knowledge.

Research Associate Fellow   Jun 2024
Pixstory

- Researched and authored daily posts on emerging trends.
- Implemented SEO strategies to optimize content visibility and engagement, increasing reach by 20%.
